

# ANNUAL NOTICES

School District of Rib Lake  
1236 Kennedy Street, Rib Lake WI 54470

September 1, 2016

## NOTIFICATION OF ASBESTOS

As a result of federal legislation (Asbestos Hazard Emergency Response Act - AHERA), each primary and secondary school in the nation is required to complete a stringent inspection for asbestos and to develop a plan of management for all asbestos-containing building materials. The Rib Lake School District has a goal to be in full compliance with this law and is following the spirit, as well as the letter of the law. As a matter of policy, the district shall continue to maintain a safe and healthful environment for our community's youth and employees.

In keeping with this legislation, all buildings (including portables and support buildings) owned or leased by the Rib Lake School District were inspected by EPA accredited inspectors and samples were analyzed by an independent laboratory. Based on the inspection, the school prepared, and the state approved, a comprehensive management plan for handling the asbestos located within its buildings safely and responsibly.

Furthermore, the Rib Lake School District completed their 3-Year Re-inspection required by AHERA in August 2015. Our district buildings, where asbestos-containing materials were found, are being handled in a safe and responsible manner.

This past year the Rib Lake School District conducted the following with respect to its asbestos containing building materials:

*\*Continued our Operations and Maintenance Program*

*\*Abated 9x9 floor tiles on the stage in the High School.*

Federal law requires a periodic walk-through (called "surveillance") every six months of each area containing asbestos. In addition, the law requires all buildings to be re-inspected every three years after a management plan went into effect. MacNeil Environmental, Inc. will continue to accomplish this under contract.

Short-term workers (outside contractors - i.e., telephone repair workers, electricians and exterminators) must be provided information regarding the location of asbestos in which they may come into contact. All short-term workers shall contact the district's Designated Person before commencing work to be given this information. The District's Designated Person is Lori Manion, District Administrator.

The Rib Lake School District has a list of the location(s) and type(s) of asbestos containing materials found in that school building and a description and time-table for their proper management. A copy of the Asbestos Management Plan is available for review in the school office. Copies are available at 25 cents per page. Questions related to the plan should be directed to the Rib Lake School District at 715-427-3222

## **RIGHT TO REQUEST A SCHOOL & SCHOOL DISTRICT PERFORMANCE REPORT**

Pursuant to section 115.38(2) of the Wisconsin State Statutes, the Rib Lake School Board hereby notifies the parents/guardians of students enrolled in the district of their right to request a school and school district performance report. Please contact the superintendent's office at 715-427-3222, if you wish to receive the most recent performance report. The School District of Rib Lake's performance report is also available on the district website.

## **INDOOR ENVIRONMENTAL QUALITY (IEQ) NOTIFICATION**

The Rib Lake School District has an Indoor Environmental Quality (IEQ) Management Plan. The plan was initially developed in 2012 and is reviewed by MacNeil Environmental Testing who conducts tests annually and the district received updated reports. Questions and concerns should be directed to the IEQ Coordinator, Lori Manion (District Administrator), at [lmanion@riblake.k12.wi.us](mailto:lmanion@riblake.k12.wi.us) or (715) 427-3222. The District Office is located at 1236 Kennedy Street in Rib Lake, WI. Copies of the plan are available at the District Office for interested parties.
