September 3, 2020

Dear Parents and Guardians,

From March 23, 2020 to August 15, 2020, the School District of Rib Lake offered free breakfast and lunch as part of the summer food service program through the United States Department of Agriculture. This program, which usually ends in August, was extended to continue until the end of December for participating schools.

This extension is great news for the families of the district. Our participation in the program this summer will allow us to offer breakfast and lunches to all students at no charge through December, unless the funding runs short of the completion date.

The program is open to all students enrolled in the Rib Lake School District or any child under age 18 who is a district resident. All students enrolled in the on-site option will have the ability to access the free meals during their school's scheduled breakfast or lunch. No notification or requirements need to occur. Meals will still be recorded on the family JMC lunch account, but families will not be charged. Families will be notified in advance by email when the free meal program is set to end.

Children 18 and under who are enrolled in the district's virtual option or may not be enrolled in the district will need to complete the following enrollment information [link to participate](#). These meals will be available for pick up at 11 am each day in the high school office. Delivery will not be available for the fall program.

This program will begin on Friday, September 4, 2020. With the short notice from the USDA and a quick start for the program, please realize that we may be short menu items due to ordering deadlines and may have to substitute food items for the next week until we get an accurate count of meals needed.

Please feel free to contact me with any questions.

Sincerely,

Rick Cardey  
District Administrator
