NURTURING RELATIONSHIPS

Rib Lake Elementary School builds strong connections between staff members and each child that enters our doors. Children are known and greeted by name.

BRAIN-BASED LEARNING

Children learn best with physical activity breaks. Physical Education is offered 4 days a week, and 45-60 minutes of recess is offered daily to all elementary school students.

POSITIVE CULTURE

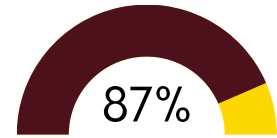

Children are taught the routines and expectations of the school. They are provided opportunities to learn about and practice positive decision-making skills.

WHOLE-CHILD FOCUS

Each child's academic, social, emotional, and personal development needs are considered by teachers. Staff members collaborate to help meet the needs of each child, and onsite professional mental health counseling is available for students whose families are interested.

STAFF COMMITMENT TO EXCELLENCE

87% of classroom teachers are LETRS (Language Essentials for Teachers of Reading and Spelling) trained or presenting at regional/statewide professional conferences. This growth mindset of staff models a positive behavior to students.

INDIVIDUALIZED LEARNING

Individualized learning paths are created for every child to focus on during daily WIN (What I Need) time.

STRONG COMMUNITY INVOLVEMENT

Children and community members engage with each other through the Dollars for Scholars program, Christmas Caroling, developing Summer Reading Incentives, and parade involvement.
